

Collaboration in Jesus

Partnership between *ministries*, *persons*, and *groups*.

1. A *group* is a congregation of born-again believers that loves and clings to Jesus and each other.
2. A *ministry* is a *person* with a calling on their life to serve *groups* with their spiritual gifts in Christ.
3. A *ministry* is a unit in the Body of Christ with the purpose to serve in a particular way according to their calling and mandate from the Father.
4. A *ministry* must not dominate in the *group* but should serve through leadership and according to the gifts they are equipped with by God.
5. A ministry must never conquer the *group* but shall work in the entrusted confidence given by the *persons* in the *group*.
6. A *ministry* is not to be served but to serve.
7. The *group* reserves the right to refuse a *ministry* that they perceive that they can not trust.
8. The *group* should support a *ministry* they consider to be of God with labor and economy.
9. The *ministry* should regularly report to the *group* regarding entrusted funds.
10. The partnership aims to find a model for interaction and trust between the congregation and *ministries*.
